INTRO

30 Years of Design History

After three decades in the fast-paced yet endlessly inspiring world of design, it's a pleasure to pause and reflect on all that these years have brought. It all began in 1995, when I made the bold decision to become my own boss. Lighting became my passion, my profession, and the foundation for a business I hoped would grow into something meaningful.

Since then, time has flown by. Design after design has come to life, and along the way, a few have even become modern classics. With a playful and curious approach, I've explored new ideas, challenged norms, and helped shape a collection that reflects both creativity and purpose.

It's been anything but boring—30 years filled with exciting projects, new product launches, and steady expansion.

Every piece we've created has been a personal expression—creatively and in terms of design. My goal was never to build a brand for the sake of branding, but rather to see people embrace and enjoy our products in their homes, workplaces, and everyday lives. That has been the greatest reward.

Today, we proudly design, produce, and sell lighting to an international audience, and over the years, we've been honored with numerous design awards. Yet the core values remain unchanged since 1995. Curiosity and experimentation are still at the heart of everything we do. And I continue to take great joy in designing, innovating, and growing our creative universe.

Here's to the next chapter.
Enjoy!

Ronni Gol
CEO / Founder / Entrepreneur

THE COLLECTIONS

AURA Collection

AURA is an award-winning collection based on LIGHT-POINT's characteristic design style with its clean, calm lines. At the same time, round curves lend AURA an aesthetic softness. The collection consists of ceiling and wall lights. AURA Ceiling is available with two and three light sources that can rotate on their own axis, making them super flexible. AURA Wall is available in four lengths. W3 and W4 are particularly suitable for hanging above a bathroom mirror.

BLADE Collection

BLADE is based on precision, geometry and clean lines. Comprising two cylinders connected by a moveable, linear core, its integrated yet hidden functionalities play an important role. All hinges and cables are integrated into the design and so are invisible. Every element has been stripped down to its essential function and is there for a reason.

When you tilt the arm and rotate the shade, BLADE casts a beautiful light, regardless of where it's positioned. It's a timeless collection that celebrates the high quality of its material, emphasised by its slender, elegant silhouette. With its pure design and sleek form, it's sure to add style to any room.

The collection encompasses table, floor, pendant and wall lights. All lamps come with LEDs as well as an optical glass providing a wide, glare-free light, and are ideally suited for both the residential and hospitality sectors.

BLADE collection is the result of the exclusive collaboration between LIGHT-POINT and the internationally recognized premium design consultancy, Studio F. A. Porsche. BLADE won the prestigious iF DESIGN AWARD, 2023.

LIGHT-POINT | DESIGN BY STUDIO F. A. PORSCHE

In 2018, LIGHT-POINT devised a global growth strategy centred on the Premium Design to position the brand in a class of its own. In the last four years, LIGHT-POINT has grown significantly and its collections, developed by its in-house design team, have garnered many international accolades.

In 2021, LIGHT-POINT became a member of an exclusive group of companies to partner with the internationally recognised premium design consultancy, Studio F. A. Porsche. The strategic vision of this partnership is to enhance the premium design quality of LIGHT-POINT's product collection.

For the first two design collections, BLADE and INLAY, Studio F. A. Porsche dreamt up an innovative yet contemporary lighting collection that expresses its design DNA.

TIMELESS, BOLD & SCULPTURAL

CUBE is an outdoor lamp that is both classic and innovative at the same time. Its sharp, stringent design is entirely minimalist and understated, yet the lamp makes a design statement with sculptural qualities.

CUBE is available in black and a new rust version. The rust surface adds a more rustic and industrial look without being dominant. The reddish-brown hue is perfect for adding warmth to walls and facades, blending seamlessly into natural surroundings.

DARK Collection

Beneath the simple look of the DARK collection, thoughtful details lie waiting to be discovered. This lamp is easy to use and fits into any room in the home. The flexible head makes it easy to direct the light in the desired direction, and the upper part of the arm can be adjusted, making it the ideal light for reading and working. DARK is functional both on a desk and next to a chair or sofa, where it casts a soft and cosy glow. This also goes for the wall version, which can be used as a bedside lamp.

The lamp has an innovative on/off switch with a built-in dimming function, so you can easily and elegantly adjust the brightness by keeping your finger on the button. The IF Design Award-winning series consists of two table lamps, a floor lamp, and a wall lamp.

DROP / Rose Gold

LIKE DROPS DRIPPING FROM THE CEILING!

DROP is an elegant, slim ceiling pendant that can hang alone or in clusters – your imagination is the limit. You can create a big, spectacular installation in a space like a hall, or hang a smaller number in a row above a table.

DROP offers pleasant illumination, with small light sources that are deep enough to avoid glare. DROP is available in two lengths.

EDGE Collection

EDGE ROUND / Brass

EDGE LINEAR / Brass

CUTTING-EDGE ELEGANCE WITH A SMART TUNE FUNCTION

The name says it all: EDGE. A cutting-edge collection of pendants with edge and character. EDGE is available in a long, slim, linear version and in a circular model. Both are sculptural and sophisticated. The built-in Smart Tune function lets you control and manage the light using either an app on your smartphone or the touchless sensor. This makes it easy to switch your light on or off, adjust the brightness, and change the colour temperature. EDGE Round is ideal for hanging in multiples above a larger dining table.

PRECISION AND FLEXIBILITY

A round spotlight in a square base. FOCUS is a ceiling spotlight that can rotate 350 degrees, ensuring maximum flexibility and focused light.

It's perfect for highlighting artwork, but it also works really well as ceiling lighting if you want to emphasise something special in your interior design. FOCUS can also be directed vertically into the floor to create exciting effects in a room.

INLAY C1/ Matt Black-Satin Gold

INLAY Collection

INLAY is a design based on one core principle – a straight line – which is its very essence. The collection is supremely minimalist yet highlights the contrasts between similar materials – Matt Black Aluminium combined with Satin Gold or Matt Silver Aluminium.

INLAY is a masterstroke in precision, its design language defined by the interplay between its materials – the result of many hours spent refining it down to every detail.

INLAY is a stylish design with a clean, architectural form, free of superfluous elements. Its linear form casts an even light along the entire length of the lamp, which incorporates Wa touch or a touchless sensor to switch it on or off, and dim the light.

The INLAY collection comprises floor, table, wall and pendant lights. All pendants feature a built-in SMART TUNE solution, allowing you to switch the light on and off and control its colour temperature and brightness, all via the Casambi app.

INLAY collection is the result of the exclusive collaboration between LIGHT-POINT and the internationally recognized premium design consultancy, Studio F. A. Porsche. INLAY won the prestigious RedDot Award, 2023.

INLAY LINEAR/ Matt Black-Satin Silver

ONE FINE LINE

“The INLAY concept is a bold statement – it deals with the absence of design at first glance. It’s a remarkable example of the emphasis placed on detail and workmanship. Mastering this fine line has taken courage and been a huge challenge” – Christian Schwamkrug, former Design Director at Studio F. A. Porsche.

INLAY collection won the prestigious RedDot Award, 2023.

LINEA Collection

A wall lamp with an edge! LINEA is a new rectangular wall lamp defined by a sharp geometric language. A long and narrow up-down light - thoughtfully designed, inside and out. With its timeless, minimalist expression, LINEA fits seamlessly into LIGHT-POINT's design universe echoing the iconic CUBE lamp with its sculptural, cubist form.

LINEA, however, is lighter and more refined in its details, shaped like a brick. It's the perfect all-round lamp, ideal for both indoor and outdoor use. It works beautifully in a wide range of settings, whether installed alone or in a series. Think hallways, kitchens between upper and lower cabinets, or bathrooms where it provides excellent mirror lighting. It's equally suited to exterior façades, where it becomes an architectural lighting feature.

With LINEA, you can create design continuity - a visual link between indoor and outdoor spaces. The lamp is designed to optimize light output, casting a direct and symmetrical beam upward and downward, with no reflections. Thanks to its matte diffuser, the light remains soft and glare-free.

MIRAGE Collection

MIRAGE OUTDOOR STAND resembles a beautiful sculpture, a decoration placed on the ground. While reminiscent of a traditional lantern, it boasts a contemporary and ultra-minimalist look with a concealed LED light source integrated into the top. Like a small pavilion resting on four pillars, it casts light in four directions. This tall and slim outdoor lamp has a refined finish, and, as the name suggests, it carries the same design language as LIGHT-POINT's popular MIRAGE lamp. But is it a circle or a square? It's both - a "squircle." Depending on the angle you look at it from, the shape shifts and transforms its expression.

MIRAGE OUTDOOR STAND can guide you along a driveway or through a garden path, but it's more than just functional lighting. It's a design statement and a visual experience each time you return home or look out at your outdoor space. The lamp creates clarity, contrast, and spatial definition. It shapes atmosphere and visual narratives, making it ideal for transforming outdoor areas.

MIRAGE OUTDOOR STAND is striking on its own, but it truly comes to life when arranged with multiple lamps to form a dynamic lighting landscape, elevating both the lamp and its surroundings to a new level. This version includes Switch Tune technology, allowing you to choose between two light temperatures.

ORBIT W1 / Rose Gold

ORBIT Collection

An elegant and exclusive collection of indoor and outdoor lights, allowing you to create visual continuity and harmony across your indoor and outdoor spaces. ORBIT is the perfect all-around lamp: simple, reliable, and robust, yet light, sculptural, and sophisticated. The lamp casts its light further, wider and softer. The optical glass lens provides glare-free light that won't bother your eyes while still providing the light you need.

For interior use, you can choose from a wall lamp and a floor lamp. ORBIT WALL is an up-down lamp, suitable for corridors or above the kitchen counter. It comes in several sizes. ORBIT FLOOR can be controlled using a touchless sensor, making it easy to switch on and off and adjust the brightness. The floor lamp can also be adjusted in height, and the two spotlights can be controlled individually, so you can customise your lighting experience.

VISUAL CONTINUITY FOR BOTH INDOOR AND OUTDOOR

ORBIT WALL and ORBIT GARDEN are ideal for outdoor spaces, where they create both exciting and calm light, whether on facades or standing on the ground. With its up-down light, ORBIT WALL provides beautiful shadows on walls along the entrance or on the terrace. Available in black and white.

ORBIT GARDEN is a floor lamp that can accompany you from your driveway to your door, as well as in the garden, where it works well in flower beds. This model is only available in black.

RØRHAT STAND / Black

RØRHAT Collection

RØRHAT is a true Danish design icon! It has a semicircular shape – a timeless classic. Designed by Jesper Juhl Pedersen in 1989, this lamp is still produced in Denmark from the finest materials. The originality, simple lines, high quality, and affordable price point of the RØRHAT make it a popular lamp. Beautiful on a carport or garage, or on a wall, like for instance next to the front door. It is also available as a bollard, with light in one or two directions.

The RØRHAT range includes a selection of mounting hardware and nameplates, so you can personalise your RØRHAT lamp. The lamp can even withstand harsh wind and weather, but it is also suitable for indoor use. The lamp is available in a variety of finishes: classic black or white, polished chrome, galvanised, rust, and stainless steel. It is also available in raw or polished copper and polished brass for indoor use only. A super functional lamp: 100% Danish design and 100% value for money.

SLIM Collection

SLIM S1500 / Titanium

SLIM S1800 / Rose Gold

SUBTLE SOPHISTICATION

Like a line in the air. A study in style. SLIM is an elegant and efficient light source that's ideal to place above dining or meeting tables. Hanging like a trapeze on two thin fabric cables and equipped with a discreet bracket, it effectively casts a soft, warm, and diffuse light over its surroundings.

The SLIM pendant doesn't obstruct your view or get in the way, even from above. It hangs like a design statement and blends into any environment. Available in three lengths.

SOHO Collection

Like luminous art on the wall! SOHO is a wall-mounted system of circles/discs that you can freely place on the wall in all kinds of creative formations. You can mix and match colours and sizes to create a personal and artistic expression in your indoor and outdoor spaces. SOHO is ideal as a mood-setter and eye-catcher in the home, as well as in offices, hotels, restaurants, lobbies, showrooms, and shops. SOHO can also be used outdoors. Available in five sizes, all with varying depths to create overlapping patterns on a wall.

Winner of the Red Dot Design Award.

SPIRIT Collection

SPIRIT is an ultra-modern lamp for anyone who's looking for something special. It has a raw, urban, and industrial look. SPIRIT has a distinctive, three-dimensional look with one or more tube-shaped light sources that are attached to the pole with a magnet, so they can be moved freely as needed. This makes SPIRIT a super functional and flexible lamp. Available as a pendant, floor, and table lamp. The latter two models are equipped with an innovative on/off switch with a built-in dimmer function, allowing you to easily and elegantly adjust the brightness by simply holding your finger on the button.

STRIPE S1500 / Titanium

STRIPE S2000 / Brass

CONTEMPORARY MINIMALISM

An emblem of modern style! Play with the effects of light with STRIPE: A collection of two pendant lights and two wall lights with a strict, architectural, and sophisticated expression. It's a very contemporary lighting object that lets you create exciting scenes and imaginative landscapes of light in your home. STRIPE is the epitome of minimalist design. Everything superfluous has been cut out, making it graphic and sculptural above a kitchen table, dining table, or desk, on a wall, or on the ceiling. STRIPE is a gallery piece – it's a work of art, so simple, and yet capable of transforming your entire interior.

VANTAGE

Collection

VANTAGE / Rose Gold

MAXIMUM LIGHT VERSATILITY

VANTAGE is a state-of-the-art award-winning LED spot lamp that works optically, spreading light further, wider and softer. Replacing traditional reflectors with an optic glass provides glare free light, eliminating annoyance to the eyes. The collection is made up of four sizes and five colours; in a structured powder coated black and white and in a brushed rose gold, titanium and our new colour brass. Each lamp is made from CNC machined high quality aluminium which is the best choice of material for absorbing heat created by the LED.

ZERO Collection

No-nonsense design. ZERO is a family of elegant, cylindrical pendant and wall lights. These lamps are streamlined and minimalistic, spreading a soft, comfortable, and glare-free light. The pendant can hang alone or in a group of several. The wall lights illuminate both upwards and downwards and can be used in all rooms, including bathrooms and outdoor spaces (in black and white).

General terms of sale and delivery

The following terms and conditions cover all deliveries and services from LIGHT-POINT A/S, unless other terms have been agreed upon in writing.

Tender

A tender is binding for three weeks from the date of the tender.

Dispatch/return of goods

Delivery will be EXW LIGHT-POINT A/S' warehouse (Incoterms 2000) unless other terms have been explicitly agreed upon. When buying any of LIGHT-POINT A/S' goods for resale buyer shall defray all freight charges himself.

Dispatch will take place at buyers' own account and risk. When delivery has been agreed to be free of carriage the cost of dispatch is included in the price and the dispatch will be at the risk of LIGHT-POINT A/S. Buyer is only entitled to annul the order due to delay provided delivery is delayed for more than 30 days.

Returned goods will only be received when prior agreement of return has been reached and then only in the original wrapping and in an undamaged state. A copy of the delivery note or the invoice must accompany the returned goods.

Erroneous orders for standard goods will be deducted 20% for handling and control. Special goods, procured goods and unwrapped light sources will not be accepted for return.

Prices

All prices are current prices exclusive VAT, government taxes and light sources unless otherwise stated. All prices are stated without prejudice to printing errors, price changes and discontinued goods.

Payment

Unless otherwise stated in LIGHT-POINT A/S' tender or other written agreement our terms of payment are net cash at delivery/collection. At delay in payment a fee of DKK 100.00 and interest of 2% per commencing month will be added.

Notification of defects

Buyer is obligated to examine the goods immediately after receiving them. Notification of defects must be given to LIGHT-POINT A/S within 8 days of delivery. If buyer does not notify LIGHT-POINT A/S of defects within this time-limit he will not be able to cite any defects at a later date. Expenses incurred by buyer in con-

nection with cited defects are not covered by LIGHT-POINT A/S unless LIGHT-POINT A/S has received the notification of defects and has given a written acceptance to cover the costs.

Warranty

Products which have a manufacturing fault or a flaw in the material will be repaired without cost or exchanged in accordance with the rules in the Danish Sale of Goods Act and to the same extent that the warranty from sub suppliers covers. Light sources are not covered by warranty.

Scan the QR-code and read more about our 7 years warranty.

Exemption of liability

Non-fulfilment including delay or delivery of defective goods will only justify buyer compensation provided buyer documents that the non-fulfilment is caused by gross negligence on the part of LIGHT-POINT A/S. However LIGHT-POINT A/S is in no case responsible

for operating loss, loss of time, loss of profits or other like indirect losses including daily fines inflicted on buyer.

Product liability

The company is only responsible for product liability in accordance to the rules in the Danish Product Liability Act. Beyond this the company is not responsible for product liability.

Disputes

Disagreements in connection with the cooperation of the parties with reference to this agreement must be solved according to Danish law, in as much as the parties agree that the venue shall be the Maritime and Commercial High Court in Copenhagen or alternatively the City Court of Copenhagen.

Copenhagen K, 1st of September 2024.
